CARACTÈRE

La Balade au bout du monde

Certains textes ancestraux, cachés au fond de l'ancien temple ligure situé dans les marais du bout du monde, font allusion aux globules rouges du sang qui abrieraient les démons de la nature humaine, alors que les globules blancs contiendraient les forces angéliques sans lesquelles l'homme ne peut rien...

Arthis éprouve une sorte de vertige. Les pouvoirs que lui a confiés Rabal pour protéger le temple des convoitises sectaires, peuvent aussi activer démesurément les forces démoniaques qui le hantent. Ne risque-t-il pas alors de se perdre lui-même à la surface de son rêve ?...
